Durham, North Carolina 27710

Dear Dr. Scully:

Thank you for an enjoyable and impressive day with your Orthopaedic Surgery Residency Program. It was a pleasure to meet you and learn more about Orthopaedics at Duke. Lunch at the Searle Center was superb and greatly appreciated.

At the half way point in the interview season, I can honestly tell you that your Orthopedic Program has been the most impressive by far. After having the opportunity to take a closer look at your program, I am happy to say that the Duke Orthopaedic Surgery Residency Training Program will be one of my top choices.

I look forward to meeting you again in the future, and talking more about the transition from North to South.

Sincerely,
