

January 28, 1998

Stephen I. Pelton, MD  
Professor of Pediatrics  
Division of Pediatric Infectious Diseases  
Boston Medical Center  
818 Harrison Avenue  
Boston, MA 02118

Dear Dr. Pelton:

I wanted to formally thank you for interviewing me on January 23, 1998. It was a pleasure meeting you and learning more about your perspective on the Combined Program and Boston Medical Center. The program is impressive and the benefits of learning and working at both hospitals are obvious and an asset to the program. I also enjoyed talking to you about the field of infectious disease and its future direction, as I am very interested in this area of pediatrics.

My two days visiting the Boston Medical Center and Children's Hospital were very informative and exciting. After reviewing all the programs I have visited, the Combined Program stands out. It would be a privilege to learn and care for children at Boston Medical Center and Children's Hospital. I hope you will seriously consider me for a residency position as I will be ranking the Combined Program highly.

Sincerely,
